Art Unit: 3727

1. The specification is objected to as being incomplete since pages 8 and 11 are blank except for the docket number and the page number. No new matter may be added in response to this objection.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent for "said center plane," "said center plane of said first wall," or for "said first wall."

4. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent for "said center plane," "said center plane of a junction of a rear surface of said first wing," or for "said first wall."

5. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent for "said first and second generally T-shaped surfaces."

6. Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are indefinite for the same reason as claim 8 since they include all of its limitations.

Art Unit: 3727

7. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent for "said first and second generally T-shaped surfaces."

8. Claims 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are indefinite for the same reason as claim 18 because they include all of its limitations.

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

10. Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Tilman, United States Patent No. 5,211,481. To the extent that it can be determined what these claims require, Tilman discloses all claimed features. Note Figure 2 which illustrates a female profile having inwardly facing first and second hooks 33 and 35 and outwardly extending first and second wings 40 and 42. Regarding claim 22, Figure 2 of Tilman illustrates the claimed "target width to zipper height."

11. The remaining patents are cited to show other, similar closures.

12. Any inquiry concerning this application or proceeding should be directed to Stephen Garbe who can be reached at 703-308-1207. The examiner can normally be
